

Backup and recovery for Oracle databases

Commvault® provides a unified solution to fully protect your Oracle databases. The Commvault Cloud SaaS platform reduces costs and complexity through operational simplicity and infinite scale as your business adds more resources and applications.

In addition to protecting Oracle and Oracle RAC, Commvault now delivers everything you need to protect Oracle Database workloads including Oracle Database Cloud Service (DBCS), Oracle Exadata Database Service on OCI, and Oracle Exadata Database Service on premises.

SECURING ORACLE DATABASES WITH COMMVAULT

- Support for the broadest selection of Oracle databases
- Enhance native tools with purpose-built backup for extended retention and granular cyber restores
- Simplify management with a single solution for Oracle alongside your hybrid cloud data estate

Ensure business continuity and compliance

Get enterprise-ready cyber resilience for your Oracle infrastructure with global backup policies across Oracle regions, accounts, and storage tiers.

Built for Oracle, delivered "as a Service"

Designed for infinite scale, security, and flexibility, Commvault Cloud brings SaaS simplicity to data security for Oracle databases.

Optimized Oracle costs

Reduce storage costs in the cloud and on premises with Commvault Cloud deduplication and compression.

Complete Coverage only from Commvault

Reliably back up a broad selection of Oracle databases. With Commvault Cloud, you can protect against today and tomorrow's threats with coverage for structured and unstructured data, virtual machines, Kubernetes, and SaaS applications—all from a single user interface.

Unified management

Protect and manage hybrid and multi-cloud data from a single pane of glass.

SUPPORTED PLATFORMS AND APPLICATIONS

<p>Supported Oracle databases</p>	<ul style="list-style-type: none"> • Oracle • Oracle RAC • Oracle Database Cloud Service (DBCS) • Oracle Exadata Database Service on OCI • Oracle Exadata Database Service on premises
<p>Storage targets</p>	<ul style="list-style-type: none"> • Primary: Commvault Cloud Air Gap Protect for OCI Azure (Standard), Secondary: Commvault Cloud Air Gap Protect for OCI (Infrequent) • Primary: BYOS (OCI only), Secondary: BYOS (OCI only), Commvault Cloud Air Gap Protect for OCI (Standard), Commvault Cloud Air Gap Protect on OCI (Infrequent)

Backup & Recovery for Oracle Databases is included in the Commvault database subscription. Commvault Cloud provides protection beyond Oracle and Oracle RAC databases with Oracle Database Cloud Service (DBCS), Oracle Exadata Database Service on OCI, and Oracle Exadata Database Service on premises, all from a single vendor. Per VM and TB charges apply.
